stood in the drizzling rain for an hour or more to pay homage.

As the funeral special pulled into the Union station, the first to alight were the immediate family of the deceased senator, followed by a score or more of United States senators and congressmen, designated by their respective houses to represent them at the funeral.

An awe-inspiring silence pervaded as the casket was lifted from the train, National guardsmen and police stood at attentions as a side of the rising stock market.

At "60 Wall Street," Henry L. Doherty and Company, a prominent investment house, the corridors and waiting rooms were jammed with customers when the International News Service reporter pushed his way through. "I want to buy so many shares of such and such," men and women were saying to weary-eyed salesmen.

Confidence Supplants Fear.

Nobody seemed to be selling. Everybody was buying, according to an official of the company. Con-

Austin Company of Cleveland Gets

Contract. STEEL BUILDING

Tunnel Kiln. Laborsaving Machinery Ordered.

Contract for the erection of a new plant, costing more han \$100,000, to be used in the manufacture of glazedfaced brick, was awarded today by the Globe Brick company of Kenilworth, near Newell, to the Austin company, of Gleveland.

Will Erect Addition.

The new unit, known as No. 3, will offer employment to 25 additions.

vill offer employment to 25 additional men. The factory will be equipped with the latest type of labor-saving brick-making machinry and a tunnel decorating kiln, lesigned by the Robertson company of Cleveland.

The proposed building will be of brick and steel in construction, 225 feet in length and 65 feet in width. The plant is laid out for width. The plant is laid out for two kilns, although only one will be erected. Machinery will be housed in an addition to the No. 3 plant. The addition will be 40x 60 feet, two stories high and of brick construction. Glase-faced brick, for use in bath rooms store fronts and other

er places where a smooth surface is desired, will be given the first fire in the 389-foot Harrop kiln, erected at the No. 2 plant in 1925 and fixed for the second time in the new decerating kiln. The new style brick, suitable for outside and inside use, will be produced.

Justice Is Not Blind!

AN ANCIENT PREJUDICE HAS BEEN REMOVED

Justice is no longer dispensed by ignorant and individual domination. Another ancient prejudice stands convicted by AMERICAN INTELLIGENCE which insists that a jury "twelve good men, tried and true" decide the facts.

"toasting did it"-

Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

TTEARS ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE. the finest cigarette you ever smoked, made of the choicest tobacco. properly aged and skillfully blended-"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way,

Everyone knows that heat purifies, and so "TOASTING"-LUCKY STRIKE'S extra secret process-removes harmful corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

It's toasted

No Throat Irritation-No Cough.

TUNE IN-The Lucky Strike Dance Orchestra, every Saturday night, over a coast-to-coast network of the N. B. C. 1929, The American Tobacco Co., Mire

"It's Toasted"—the phrase that describes the extra "toasting" process applied in the manufacture of Lucky Strike Cigarettes. The finest tobaccos—the Cream of the Crop—are scientifically subjected to penetrating heat at minimum, 260°—maximum, 300°, Fahrenheit. The exact, expert regulation of such high temperatures removes impurities. More than a slogan, "It's Toasted" is recognized by millions as the most modern step in cigarette manufacture.

Silver Lining

It's untimely consolation to the investor who lost values will be beneficial to business.

Mr. Jones' words carry conviction and investors and non-investors alike will see the wisdom of his remain vast acreages of arable land which are unreasoning. He has merely made a statement of touched. Moreover, irrigation will bring whole fact out of what was an apparent truth to many. new areas under cultivation. Many possible comparisons show that too much instate of peace and sanity.

ditions which precipitated the most recent Wall eages seems trivial. Street crash. Thousands of American citizens from every walk of life blessed with a super-abun- highways. It is astonishing to find that in the dance of ready money sought opportunity for in the territory of India with its dense popular tion there are only 59,000 miles of hard-surfaced vestment and speculation. For many of them it roads. Many states of the American Union have ers, it was a case of follow the leader. The majority were possessed of enough available money so that the loss of their stock investments would not lous as the United States are well worth considerbreak them. The fact that they were novices at ing. the game made it impossible for them to foresee the coming crash and get out from under.

Many of the billions of dollars reported lost are paper profits only. Other actual billions and thousands of shares of stocks have changed hands within the last week at heavy loss to mertain investors and at considerable profit to the sharpeyed bargain buyer.

Comfort Passeth

the dew-dampened trees, they have discovered that the air has lost its odor of growing things and has become chill and barren. Too deep a breath before E. A. R. a few moments of acclimation may catch the throat as if to say they would like to get away too. Sum- midnight from any point in this region for periods

It is a serious loss for the early morning riser. He needs inspiration to prompt his departure from the comfort of slumber-inspiration which the live summer air and the cheering bird chorus provided. winter and there is but slight comfort to be derived from the knowledge that millions of others also are curling their toes on cold linoleum and grinding chattering teeth. Even toward the street car gang on the wind-blown corner there is extended no feeling of comradeship, but only one of pity.

But, it is the climate—the self-same climate which excites the curses of the victim of a 50-mile an hour breath of zero-that makes the North Temperate zone the wealthiest region of the world, according to no less authority than the writers of the geography books. Prosperity attends upon vigorous action and low temperature is the best exciter discovered thus far. The banana-eating, Torrid zoner may be an object of envy, but what is banana-eating getting him? Nothing but the opportunity to eat more of them. Very silly, unless one happens to like bananas exceedingly well.

What of the Eskimo then? Very simple—he is too cold to be efficient. It is just the resident of East Liverpool, Wellsville, Chester, Newell, Midland, and other nearby communities who is in exactly the right medium for vigor. Consider yourselves fortunate even while tears are shed over the passing of the all-too-brief summer and still more brief autumn.

By Frederic J. Haskin

WASHINGTON, D. C., Oct. 31 .- It is difficult corial Department 47; Business Office 45; Compos- for the American to think of India save in Kiplingsque terms-a land of jungle, of tigers and cobras, of the Methodist Episcopal church of elephants, and, alas, of famine and choiera.

Through the medium of books, India has been generally visualized as the abode of indolent fakirs or Mr. and Mrs. Winifred Welsh of fierce tribal warriors, of bejeweled maharajahs, and Mulberry street, announce the of dancing girls and withal a land of strange as- birth of a son. cetic religions. To think of India is to feel the simmering heat of Calcutta and Benares or Cey at a Halloween party in her home lon; or to shiver in the snows of the lofty Himalayas. India conjures up a picture of a fantastic land drawn half from the fairy-tale book, half from the geography book.

To learn that an inquiry of the League of Nations finds that it has become the sixth nation in tomorrow night. By MAIL-Suburban Zone-One year, \$3.00; Six the world in volume of imports and exports and months, \$1.75; Four months, \$1.25; One month, 35c. the eighth nation in the world from the industrial Fairview street announce the birth OUTSIDE ZONES-One year, \$5.00; Six months, point of view is a shattering of preconceived no. of twins, Sunday. But such is the case, another example of what this modern age can do. For unnumbered centuries India stood still economically. Famine and cholera stalked through the land periodically. The teeming millions fought their wars and worshipped their strange gods in the same manner couple, Mr. and Mrs. John Peter-from generation to generation. Not even the coming of the English changed them very much.

All India has not been changed. Three hundred million people cannot be moved to alter their age- and Mrs. William Mautz, in Klon-East Liverpool voters who have moved from one old habits of life in a generation or a century. But dyke. precinct to another since the August balloting, a start has been made, a start so sudden that the League of Nations was amazed at discovering to what extent the somnoient land had bestirred itself

try.

The people of India have always worked but their industries have been home industries; there has been no organized industrial production until the Registrars will be on duty in the city's 23 pre present century. For example, between 1901 and present century. For example, between 1901 and 1927 the number of factories increased from 1259 to 7515 and the number of workers employed from the latter number is a very small percentage of a population of more than 300,000,000. It conveys a strong suggestion of what India can do if she continues her industrial growth. The vast production of the street were married wednesday.

Miss Irene Welch of Fenton they urned from the invading into 4,000 words and was delivered they turned from the invading into 4,000 words and was delivered they turned from the intense and energetic reform of the whole system has been dramatic. No doubt it was helped, as was the street were married Wednesday.

There is another monkey wrench in the movie mechanism that may kill off professionally many older times her industrial growth. The vast production of the language of the comic better the number of factories increased from 1259 at 9 a. m. with an idea. It flowered into 4,000 words and was delivered they turned from the invading into 4,000 words and was delivered they turned from the following wisest seek the companionship of the street were married wednesday.

There is another monkey wrench in the movie mechanism that may kill off professionally many older movie players.

A cartoonist gives a little light off professionally many older movie favorites. The hig appeal on the language of the comic between the following wisest seek the companionship of the street were married wednesday.

There is another movie producers. So at 9 a. m. with an idea. It flowered into 4,000 words and was delivered the following whole and picked established movie players.

A cartoonist gives a little light off professionally many older the street and Harry C. Lynn of Sixth whole system has been dramatic. No doubt it was helped, as was the street were married wednesday.

A cartoonist gives a little light off professionally many older the street and Harry C. Lynn of Sixth whole system has been dramatic.

A cartoonist gives a little light off professionally m Failure to transfer will deprive electors of a population of more than 300,000,000. It conveys voice in the selection of township and municipal a strong suggestion of what India can do if she conofficials, a municipal court judge and clerk and two of the United States and the millions employed in

There will doubtless be a steady increase in the ways be the chief source of production. British enterprise, however, has taken steps greatly to increase this. Power houses are being built in many villages and power made available at low rates. The looms and other appliances which for centuries have been operated by hand power now can be operated in increasing numbers by electric power and this will multiply the volume of production while not altering the conditions under which the people of Harvey avenue, East End, and work. In fact their labors will be lightened and their earnings increased.

India possesses great natural resources. Agriculmoney in the recent stock market flurry, but it is ture will remain the chief industry indefinitely. and Mrs. George Moore at Girard. the opinion of Grosvenor Jones, director of the Seventy-three per cent of the population of the The mother will be remembered mance division of the commerce department at country is so employed. There has been a steady as Miss Margaret Edwards of this increase in production during the present century city Washington, that the tremendous slump in market and this is capable of indefinite expansion. Primitive methods still are used to a large extent. In-troduction of modern agricultural machinery can street, to 40 high school friends, in enlarge production to almost any extent and there honor of Miss Katherine Sebring

In the south and east, the more densely populated sections of India, primitive methods endure because flation leads to an explosion and a consequent of the small size of the holdings. Farms average five acres. The families holding these lands are Unprecedented prosperity made possible the conparcels for so long that the proudest European lin-

(Political Advertisement)

TO THE PEOPLE

Within the past few days there has been distributed a form of political propaganda which, we assume, purports to be a sample ballot. although it does not say so and does not look like one. Only a portion of the names of those that will appear on the official ballot are presented. No authority for the statements or comments made is given, and we again assume that some of the self-constituted "big" men conceived the wisdom of the scheme but hesitated when it came to attaching their signatures.

First of all the document reaffirms and endorses the National and State platforms then "we do promulgate and pledge ourselves to the following etc."

Well, platforms are harmless things, always, and are only made to be forgotten, anyway. The present city administration never had a platform and never had use for one. Actions are better than promises, so let it go at that.

Paragraph one tackles the water question, presumably because that is the one thing they knew the least about, if such comparison were possible. Usually the persons who do the most talking on any subject are the ones least familiar with the facts concerning it. They bewail the fact that the MAYOR establishes the rates charged for water, whereas Sections 3957 and 3958, General Code of Ohio, provide that the DIRECTOR OF PUBLIC SERVICE SHALL "FIX THE RATES, ETC." However, this is but a trifling error for the legal authority who helped frame it.

What the authors want to have understood particularly, it would appear, is that they are forninst "building up a large surplus" and want to promise the people a reduction in water rates. If these authorities knew what they were talking about they would know that "no large surplus" is being built up, and that REDUCTION IN RATES, AT THIS TIME, IS IMPOSSIBLE. Truly an excess in the general fund of the water works exists, and with a system as large as the municipal water plant, no level headed business man would want it otherwise. With a sinking fund of \$26,000.00 per year to be provided for, what would be done in case of a bad year with some extraordinary expenses incident to a plant of the magnitude of this one? The excess funds, as already indicated, are in the general fund of the system and have never been appropriated to a surplus. They are available for any purpose incident to the proper operation or extension of the system. These funds were acquired through a period of years when eight potteries, now closed and permanently out of business, were prosperous and were heavy consumers of city water. One factory recently closed now out of business, had been paying \$1,400.00 per year for city water consumed.

When the present administration assumed control the plant, after taking care of sinking fund requirements, was making a profit from \$7,000 to \$9,000 per year. One factory after another has closed until THE MARGIN HAS BEEN REDUCED, TO A MINIMUM. It is true that the volume of water used is slowly building up because of private consumers on the recent extensions, but it requires several hundred private families to replace the volume formerly used by a factory.

To give a reduction of 10% on water rates would curtail the revenues for water consumption between \$12,000 and \$13,000, per year, which would mean to a customer paying \$5.00, a saving of only 50 cents. But such is not within the range of possibilities. A REDUCTION OF FIVE PER CENT EVEN WOULD INVADE THE DANGER ZONE, when upkeep and replacement are considered. Good business principles suggest a margin of profit and a substantial surplus, and THE STATE AUTHORITIES SO DIRECT. When the empty buildings, formerly housing manufacturing plants, are occupied again with some line of activity and become water consumers, together with what is added on account of extensions of mains, then will a reduction in rates become a possible reality. Consult the city records, accounting department, instead of employing imagination.

Water works funds are not idle. Your mayor and director have purchased considerable of the city's securities - notes and bondswhich securities are liquid assets and readily convertible into cash, if needed, and five per cent interest is being received from such investments. This, you will agree, is good business.

Paragraph two wants something done to reduce fire insurance rates. Do they not know that the basic rate of insurance in this city was reduced last August to the extent of 20% and that all insurance written since then is based on the new rate? The PRESENT BASIC RATE IS NOW LOWER THAN EVER BEFORE IN THE HISTORY OF THE CITY. As per ex-ample, the rate now on a dwelling where there are water mains, is 40 cents per hundred dollars for three years. Recently it was 50 cents. This means a reduction of 20%. Mercantile risks-brick buildings-have been reduced six per cent per year, and mercantile, frame buildings, sixteen and two-thirds per cent for three years. If you have an extra hazard—if your building is contiguous to a fire trap and your rate is correspondingly higher, that is your hard luck and cannot be helped. Ask your insurance agent instead of guessing. These men know their business and will tell you why, if your rate happens to be abnormally high. As to "meeting requirements" to merit a reduction, take notice that said reputed requirements are not all the prerogatives, of the water system. Some of the "requirements" are legislative and when these - which cost nothing in dollars and cents—are taken care of it will be time to consider spending the city's money, if necessary.

Paragraph three wants Pennsylvania avenue designated a State highway and State aid secured for its improvement. Bully, if such is possible. The State highway department has, in the past, steadfastly refused to come into cities and help improve streets, even though they be designated State highways. Such has been done in villages, where the projects could not be financed otherwise. But if by virtue of any provision of the Norton law such possibility exists, we will gladly go along and try for anything in sight.

Paragraph four commits the candidates seeking election to "an economical administration" etc. Well, that is what we have always practiced. If the many things done by the present administration—never before attempted—could have been accomplished otherwise, it must needs have been done by magic. Look the town over and see for yourself.

Paragraph five says they believe in East Liverpool and have faith in its future. SO SAY WE ALL. LETS MAKE THAT ONE THING UNANIMOUS. HERE IS ONCE AT LEAST, WE CAN AGREE.

Respectfully submitted,

J. W. MOORE

Director of Public Service and Public Safety.

HIGH GRID GAMES FOR 1930 ARE SCHEDULED

Remain On Card

Football Bill Complete Save for Two Dates.

7ITH the exception of two dates, open at the present time, the high school football schedule for the 1930 cam-

paign has been completed by Faculty Manager J. M. Decker. Eight engagements have been listed to date. At least two more. possibly three, will be added before the roster is rounded out.

Whether there will be any new schools on the list is problemati-

Manager Decker has letters out to a number of schools, paving the way to negotiations, including many in the upper valley and sections of Ohio. Mingo wants a place on the Blue

and White schedule and East High school of Erie, which nosed out the Potters in a close battle here a couple of weeks ago, wants to come Up to date the schedule reads

as follows: Sept. 20-Open, perhaps perma

Sept. 27.-Holy Name, Cleveland,

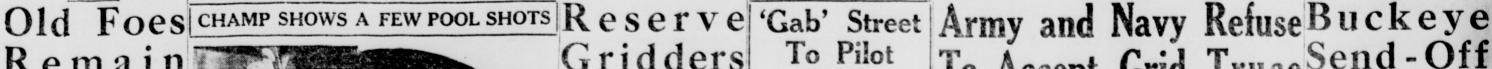

Oct. 4-New Philadelphia here. Oct. 11—At Toronto.
Oct. 18—At Youngstown East.
Oct. 25—Bellaire here.

Nov. 1—At Canton. Nov. 8—Martins Ferry here.

Thanksgiving—Wellsville here.

As can readily be seen, a few new angles to the schedule are vis-

that the annual Canton McKinley engagement has been set back in the season until Nov. 1. For the last two years it has figured as the opening game of the season for

Mothers, Mix This At Home for a Bad Cough

You'll be pleasantly surprised when you make up this simple home mixture and try it for a distressing cough or chest cold. It takes but a moment to mix and costs little, but it can be depended upon to give quick and lasting relief.

Get 2½ ounces of Pinex from any druggist. Pour this into a pint hottle; then fill it with plain granulated sugar syrup or strained honey. The full pint thus made costs no more than a small bottle of ready-made medicine, yet it is much more effective. It is pure, keeps perfectly and children love its pleasant taste.

This simple remedy has a remarkable three-fold action. It goes right to the seat of trouble, loosens the germladen phlegm, and soothes away the inflaumation. Part of the medicine is absorbed into the blood, where it acts directly upon the bronchial tubes and thus helps inwardly to throw off the whole trouble with surprising ease.

Pinex is a highly concentrated compound of genuine Norway Pine, cen taining the active agent of creosote, in a refined, palatable form, and known as one of the greatest healing agent-for severe coughs, chest colds and brochial troubles.

Do not accept a substitute for Pin It is guaranteed to give prompt relief.

Do not accept a substitute for Pro It is guaranteed to give prompt re or money refunded.

WHAT ABOUT CHARITY CASES?

Except in emergencies, the City Hospital does not accept charity cases from outside the City limits.

Patients from outside East Liverpool who are unable to pay their own way are paid for by the taxing districts from which they come, or charitable friends.

Facts About the City Hospital

- 1. It belongs to You, the People of East Liverpool.
- 2. It needs more room, new equipment and better facilities for Patients and Training School.
- 3. It will cost you ony 75c for every \$1,000.00 Tax Valuation.
- 4. Because of the Expiration of other levies, the County Auditor says, when this levy is passed your taxes will not be increased in 1930.
- 5. All City Physicians have endorsed the Levy.
- 6. Hospital is under an entirely New Management—well trained, courteous and competent.
- 7. This Tax Levy will provide East Liverpool with a modern, well equipped Hospital, adequate to the needs of its people,

FIFTEEN years after his grad-uation, Dr. Caldwell became one of the best-known members of his profession. A single pre-scription made him famous. And for forty years it has continued to make friends.

As fast as people could tell others about the marvelous way this prescription corrects constipation and relieves other troubles caused by sluggish bowels, de-mand for it spread until Dr. Caldwell was forced to have it filled in quantities; bottled and distributed through drug

Today, Dr. Caldwell's Syrup Pepsin, as it is called, is the world's most popular laxative.

Millions of people would never think of using anything else when they're headachy, bilious, feverish, or weak; when breath is bad, tongue is coated or they are suffering from nausea, from gas

or lack of appetite, etc.
Dr. Caldwell's Syrup Pepsin as you buy it from your drug store is made in accordance with the original formula from only herbi and other pure ingredients. It is pleasant tasting; its action is thorough in the most obstinate cases; gently effective for women and children. Above all, it repre-sents a doctor's choice of what is safe for the bowels.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

The 33 States shown in black have all scrapped the so-called "Uniform Rule" by which Ohio is still shackled

lhey can't ALL be wrong!

Thirty-three of our 48 states have scrapped the so-called "Uniform Rule." Among the 15 that still have it as part of their taxing laws are only two great industrial-agricultural states-Ohio and Illinois.

Progressive Ohioans have long known that this 78-year old tax system is a handicap to the state and they are now fighting to keep Ohio in the front rank by putting the "Uniform Rule" in the discard and substituting the "Tax Limit Amendment."

Some of the 33 states shown above are getting industries that should rightly come to Ohio. That means less work in Ohio-less chance to save for a rainy day.

Some of the 33 states are getting money from Ohio-money that cannot honestly afford to pay taxes here under the "Uniform Rule."

THESE CONDITIONS WILL NEVER CHANGE AS LONG AS THE "UNIFORM RULE" IS A PART OF THE OHIO CONSTITUTION! If you, as a citizen, want a square deal for yourself and your state-If you want prosperity and happiness-If you are interested in honesty-then vote "YES" for the Tax Limit Amendment on Nov. 5th.

The very name "Uniform Rule" is a lie. Taken at face value it says that all property is taxed equally. As a matter of fact, this is furthest from the truth. Your home, and all the other homes and real property in the state, make up only 1/4 of the wealth of the state and yet these homes and this real property pay 3/s of all the taxes. Is that either fair or just?

On the other hand 15 billion dollars (\$15,000,000,000.00) of Ohio money is driven into hiding or out of the state because the owners cannot afford to pay the runious taxes that are exacted under the so-called "Uniform Rule." No one objects to paying equal taxes honestly, but you do object to paying more than your share. Under the "Uniform Rule" every taxpayer WHO PAYS will ALWAYS pay more than his share.

Help get rid of a tax law that puts a penalty on thrift, that takes most of the income of the nest egg you have saved, that encourages dishonesty and

Vote "YES" on Nov. 5th and substitute the Tax Limit Amendment which can encourage thrift and saving and make Ohio a better state to live in.

Judden HEAT... sudden COLD...

... and it's mighty tough on motor oil

020...a motor oil made especiallý

to meet Ohio's erratic weather

New SOHIO MOTOR OIL

free from harmful wax

F you have ever driven an automobile during a typical Ohio winter you know the need for a motor oil of unusual, special qualities. Into the task of producing such a motor oil, Standard of Ohio has thrown the full weight of its great resources and technical knowledge.

The result is New Sohio Motor Oil—the one motor oil made especially for Ohio motorists.

First introduced last May, this remarkable lubricant has already won thousands of enthusiastic users. Now still further refinements make it unsurpassed as a cold-weather lubricant.

To produce New Sohio Motor Oil, nature's richest lubricant (paraffin base oil) is refined by an astonishing new process. First it is chilled to 50° below zero. Then the harmful wax content is whirled away. This leaves an oilier oil . . . a more vital, long-living oil . . . an oil of amazing flexibility. Not only is it alert and free-flowing at frigid temperatures that leave ordinary oils dead and sluggish . . . it also does a perfect lubricating job at all operating temperatures reached in modern high speed engines. It holds its body!

Try it . . . the attendants at any red-white-and-blue Standard service station, or dealers displaying the Sohio sign, will be glad to drain and refill your crankcase with this new allweather oil. Just ask for New Sohio Motor Oil . . . then

watch your speedometer and thermometer for the proofs of its superior lubricating qualities . . . you'll be delighted.

How We Make New Sohio Motor Oil The Ideal Lubricant for Ohio

Excess wax in motor oil causes trouble. Many manufacturers of good oils now partially dewax their products by centrifugal action, employing the principle of the farm cream separator.

But the method used in making New Sohio Motor Oil

performs this vital operation at 50° below zero. The harmful wax is thus completely crystallized and then thrown off. What remains is all-lubricant—New Sohio Motor Oil.

The results:

- Quicker, easier starting-less "drag" on batteries.
- Less need for slow warming-up.
- 3 Full, smooth power-unfailing piston seal.
- Reduced carbon formation.
- 5 Less wear on metal parts.
